Subject: DICO/Des Moines TCE status update on the focused feasibility studies

Hi Tanya:

I'm the START PM for the DICO/Des Moines TCE task order. Erin made some modifications to the two focused feasibility studies, including changes to ARARs. She asked us to look through her changes and comments and if there was anything we felt uncomfortable with, to let her know and we could discuss. Early this week our ARARs person, Karen Miller, called and said she had concerns about a few comments. I tried to arrange a phone call so we could discuss, but I didn't know Erin was on leave.

Would you be available for a conference call today? Also, if you have an ARARs specialist or someone who's been working with Erin, that would be helpful.

If that's not possible, I can have Karen try to synthesize her comments and concerns in an email.

Best regards,

Mike
